CENTRE OF EXCELLENCE IN PREDICTIVE TECHNOLOGIES

www.visiongss.com

GSS can help you transition through a major transformation, design a new infrastructure or optimize your current operations.

The aim of our Centre of Excellence in Predictive Technologies is to provide coaching with the expertise required to assess various operating scenarios, obtain optimal technical solutions and more specifically, offer strategic and technical recommendations to help you make informed decisions.

Choose from the following services offered by our Centre of Excellence:

- Process modelling and simulation (2D and 3D)
- Statistical analysis, Design Of Experiments (DOE)
- Forecasting
- Design For Lean Six Sigma
- Dynamic capacity analysis

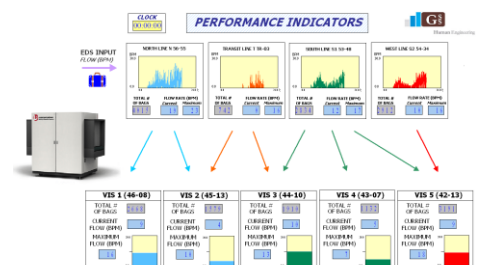

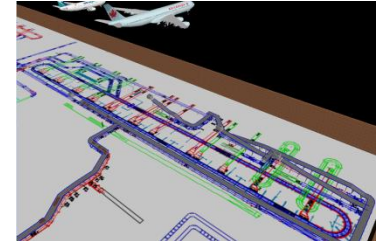

“Essentially, all models are wrong, but some are useful.”

*Dr. George E. P. Box
Influential 20th Century American Statistician*

Through our predictive technologies our clients have been able to bring about the following:

- **60% improvement** in forecasting precision;
- **\$8,000,000** in investments averted further to 6-month simulation and optimization effort;
- **ROI surpassing 20x investment** by analyzing numerous operational choices and best scenario implementation.
